# Grenada's National Vision

GoG has established a national vision 2035 wherein it aims to establish a resilient and prosperous nation. The Grenada EA will be in line with the national vision to further the digital transformation efforts of the nation.

"

Grenada, a resilient and prosperous nation, with a conscious and caring citizenry, promoting human dignity, and realising its full potential through sustainable economic, social, and environmental progress for all.

*National Sustainable Development Plan (NSDP) 2020 - 2035*

# Grenada's Digital Vision

In 2024, GoG developed the digital vision for the nation in line with the national vision 2035. The EA vision will be built on the foundation of this digital agenda for Grenada.

"

## Digital Grenada: a society that works

Our vision is built on the foundation of a government that serves its people with efficiency and transparency, where digital services are not a luxury but a standard that simplifies, connects, and enriches the lives of every Grenadian.

We see a future where citizens harness technology to enhance their daily lives and drive a culture of innovation that resonates through every sector of our economy.

In this future, the transformative power of digital tools is accessible to all, breaking down barriers and fostering a society where no one is left behind.

# Strategic focus areas for Grenada's digital agenda

The digital agenda focus on three strategic priorities for the government building on the national vision statement. The objectives established by the digital agenda will be on building people, simplifying lives and boosting resilience and sustainability for the nation. The digital agenda also focus on specific focus areas for furthering the digital transformation across these three strategic objectives which are presented below in the diagram.

## Build our People

Create a supportive environment where news ideas and technologies can thrive and grow.

Ensure everyone, from students, to seniors can connect, learn and benefits from digital resources.

Provide digital literacy support and make online government services accessible to all.

## Simplify Life

Make Government services easier, faster and convenient for citizens to use by leveraging technology.

Design a digital experience that is smooth, consistent, and user-friendly, ensuring that services meet citizens' needs

Create intuitive interfaces and seamless interactions to improve satisfaction.

## Boost reliance and sustainability

Use technology to support long-term, resilient growth while also ensuring that is secure and reliable for everyone.
